Division	Certificate	Unit	Category: 1 or 2 ¹	Associated Program (Category 2 Only)	Brief Description of Certificate	First Offered (Approximate Date if Unknown)	Approval Date If Known (MM/DD/YYYY)
Faculty of Applied Science and Engineering (FASE)	Artificial Intelligence Engineering	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs	The Certificate in Artificial Intelligence (AI) Engineering will provide Engineering students with a solid foundation in machine learning and AI concepts, which they can then apply within the context of their engineering discipline. Students will develop an understanding of applying AI to improve computer decision making, prediction, image/speech recognition, image/speech synthesis or other tasks.	January 2019	Approved by Faculty Council 10/31/2018

¹ Category 1 is a post-baccalaureate certificate (stand-alone, for-credit). Category 2 is a certificate offered in conjunction with an undergraduate program (for-credit). See the [Policy for Certificates \(For-Credit and Not-For-Credit\)](#), 2016 for further details.

Faculty of Applied Science and Engineering (FASE)	Communication	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs	The Communication Certificate presents an opportunity for interested students to gain specialized expertise and recognition for a personal and professional commitment to enhanced communication skills through courses that expand on communication practices in contexts beyond engineering, deepen theoretical understanding of communication and facilitate professional development in writing, oral communication and critical thinking.	September 2015	Approved by Faculty Council 04/17/2015
Faculty of Applied Science and Engineering (FASE)	Engineering Business	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs, except those in Engineering Science's Mathematics, Statistics and Financial option. Students can complete either the Engineering Business Certificate or the Entrepreneurship, Innovation	The Engineering Business Certificate is a collaborative effort across FASE and the Rotman School of Management and is open to Engineering students interested in learning more about the business dimension of engineering, from finance and economics to management and leadership.	September 2011	Approved by Faculty Council 12/01/2010

				and Small Business Certificate, but not both.			
Faculty of Applied Science and Engineering (FASE)	Engineering Leadership	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs.	Engineers are taught to think analytically and systematically. Leadership skills build on these strengths to make one a more effective engineer. In the Engineering Leadership Certificate, undergraduate engineering students will learn how to effectively handle complex, human challenges that often mean the difference between success and failure.	September 2014	Approved by Faculty Council 12/11/2013
Faculty of Applied Science and Engineering (FASE)	Entrepreneurship, Innovation and Small Business	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs. (Note that students can complete either the Entrepreneurship, Innovation and Small Business Certificate, or the Engineering Business Certificate, but not both.)	Engineering undergraduates with an interest in running their own businesses can choose to take two half-course electives for the Entrepreneurship Certificate. The first course provides an overview of small businesses, while the second examines business management skills. Rounding out the three-course certificate is a class in engineering economics.	September 2010. (Note that this certificate had existed previously as an “in house” recognition, which did not have a formal governance	Approved by Faculty Council 05/26/2010

Faculty of Applied Science and Engineering (FASE)	Global Engineering (U of T Global Scholar)	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs	The Certificate in Global Engineering (U of T Global Scholar) is open to Engineering students interested in developing their knowledge of global issues and how engineers can influence and improve conditions around the world. The courses focus on a variety of concepts such as effects of emerging technologies in both developed and developing economies, global energy systems, innovative finance techniques, current theories in international development and foreign aid. In January 2019, the FASE Undergraduate Curriculum Committee approved the name change to the certificate for it be recognized within the University's Global Scholar initiative.	September 2011	Approved by Faculty Council 12/01/2010
Faculty of Applied Science and Engineering (FASE)	Mineral Resources	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs, except those enrolled in the Mineral Engineering degree program.	The Mineral Resources Certificate will expose students to the mineral resources sector and provide a window into state-of-the-art research in mining.	September 2012	Approved by Faculty Council 03/07/2012

Faculty of Applied Science and Engineering, Faculty of Music	Music Technology	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs.	The Music Technology Certificate will provide an opportunity for Engineering students to pursue their musical interests in a way that contributes to their degree program requirements and explore the ties between engineering and music. Students completing the certificate will be able to apply their knowledge of music, music theory, sound and technology to future engineering design projects.	September 2018	Approved by FASE Faculty Council 12/12/2017. Approved by Music Faculty Council January 2018.
Faculty of Applied Science and Engineering	Nuclear Engineering	Cross-Disciplinary Programs	2	Open to Engineering undergraduate students in all Engineering undergraduate degree programs.	The Nuclear Engineering Certificate recognizes an interdisciplinary focus on nuclear systems. Nuclear energy constitutes an important component of the energy mix in most national energy strategies, and its proportion will likely increase in response to growing challenges related to fossil-driven climate change. Modular nuclear systems power space craft and remote sites on earth. Future nuclear power systems will address current concerns regarding safety and the environment, and significant breakthroughs are likely in fusion technology.
